

Astroturf Installation by Prismatic Supplies Inc.

When artificial turf is what you need for your property, Prismatic Supplies is here to help you decide what type is best for your needs, and we will install it as well.

We're an authorized reseller of Bella Turf products. Their shaped yarns provide superior performance to artificial grasses made from flat yarns. The Bella Turf grasses have a beautiful appearance, and the top-quality performance comes from the fact that they stay cooler than other grasses do, they have less shine, they can endure more foot traffic on them, and they are much stronger than flat yarn grasses are.

So whereas flat yarn grasses are mostly for decorative purposes, the shaped grasses from Bella Turf are made for heavier usage and made to last.

Bella Terra turf comes in three different series: Ultimate, Pro, and Specialty. We're going to provide a brief overview of each series and the models within them to give you an idea of the range of choices available.

Ultimate Grass Series

The industry-leading products in this series are designed right here in Canada for Canadian landscapes. They offer the best combination of performance and luxury available.

- **Cascade Elite**-- This is Bella Turf's most luxurious grass and is a popular choice for families.
- **Coastal Pro**-- Bella Turf uses its ultra-soft S-blade technology to create one of the softest artificial grasses on the market. It's especially good for those whose needs include recreational activities such as sports.
- **Natures Best**-- When there will be heavy foot traffic and durability is a key consideration, this high-quality option with colors and form inspired by the prairies is the way to go.
- **Park Royal**-- The Park Royal is among the most luxurious and elegant artificial grasses available.
- **Sierra Pacific**-- If you want a natural-looking grass that blends well with your garden, this is the one for you.

Pro Grass Series

The popular and long-lasting grasses in this series look beautiful and are designed with affordability in mind, making them great choices for budget-minded customers who still want a great lawn.

- **Classic--** This is the most affordable artificial grass Bella Turf makes. All at once, it's high-quality, elegant, pet-friendly, glare-free, and easy on the wallet.
- **Paw Pro--** Bella Turf really got it right with this one by creating a grass with high aesthetic value to people while also being practical for pets.
- **Sierra Pacific - Lite--** Here is a great option for anyone who wants a natural texture. This might be the best choice for people who love nature and love spending time working in their gardens.
- **Spring Pro--** The Spring Pro is one of the best overall choices because it offers softness, high visual appeal, and affordability.
- **Turf Cloud--** This luxurious option is an underlay that adds more padding to existing turf, making it softer and longer-lasting. We especially recommend it for playgrounds, athletic sites, and other locations that get a lot of traffic from children.

Specialty Grass Series

In this series, you get artificial grasses that can endure the heaviest usage and last the longest. For that reason, they're ideal for sports and other activities that involve lots of feet and lots of hard use.

- **Country Club--** Designed specifically for golf, the Country Club looks and feels just like the real grass you'd expect to find at the best practice greens out there.
- **Eagle Putt--** Bella Turf proudly presents the Eagle Putt as its most versatile sports surface. Like the Country Club, it has a realistic look and feel; people on this putting green will hardly be able to tell the difference.
- **Elite Play--** This one is Bella Turf's workhorse. It's their only grass that can be installed without including an infill. Bella Turf's TwistBlades make a support layer on their own, and the grass doesn't get matted down the way traditional artificial grasses do. It's a heavy-duty product that can handle anything, so it's perfect for playgrounds, sports fields, fitness centers, and childcare facilities.
- **Turf Cloud Flow--** Last but certainly not least, Bella Turf's Turf Cloud Flow is an add-on that's super-soft and also has added drainage that makes it go well with decks and patios.

Installation by Prismatic Supplies

In case you weren't counting, that was a total of 14 different high-quality choices from Bella Turf for your commercial or residential needs. That's a lot to consider, and it might feel a little overwhelming!

Fortunately, Prismatic Supplies has experts who can come out to your property, discuss your needs with you, and help you determine which type of artificial grass is the right one for you. Even better, we'll follow up by providing a professional installation, leaving you with a great-looking artificial lawn that's the best money can buy.
