## LAPTOPS AVAILABLE FOR CORPORATE EVENTS

### CHALLENGE

To host graduate training programmes on short-term notice requiring 300 laptops.

Additional requirements:

- Pre-installed training presentations
- A temporary WiFi setup over 2 days at their head offices in London.
- On-site tech support throughout the event

### SOLUTION

Technology Rentals technicians handled complete logistics, setup and support, including:

- Checking each laptop for correct training files, load tests.
- Secure all equipment and cables to a safe standard.
- Install and complete testing of event WiFi networks
- On-site technical support
- User training
- Installation of laptops
- Pack-up/derigging of all equipment.

### RESULT

Client success through professional service and the efficiency of a start-to-finish event IT process.

Client satisfaction with the speed in which laptops were setup, tested and ready for graduate use.

A rewarding event, the OWR way, for both ourselves, our clients, and their attendees.
