

# TOP 8 **ANTI PARASITIC** HERBS

A close-up photograph of Mimosa pudica, showing two vibrant pink, spherical flower heads with numerous stamens. The flowers are surrounded by lush green, feathery compound leaves. The image is partially framed by a green curved border on the right side.

# Mimosa Pudica

A close-up photograph of a Black Walnut tree branch. The branch is covered with vibrant green, serrated leaves. Several green, oval-shaped walnut fruits are clustered together on the branch. The image is partially framed by a large, curved green graphic element that separates it from the white background on the right.

# Black Wallnut

A close-up photograph of several anise seeds and star anise pods. The seeds are small, oval-shaped, and light brown. The star anise pods are larger, star-shaped, and a darker brown color. They are arranged on a light-colored, textured surface. A thick orange curved line separates the image from the text on the right.

# Anise

A close-up photograph of the leaves of a Sweet Wormwood plant. The leaves are bright green, finely divided, and have a feathery or fern-like appearance. They are arranged in a dense, branching pattern. The background is a soft, out-of-focus green, suggesting more foliage.

# Sweet Wormwood

# Oregano Oil

A close-up photograph of green neem leaves, showing their serrated edges and prominent veins. Numerous small, clear water droplets are scattered across the leaf surfaces, reflecting light. The leaves are set against a blurred background, and a curved green border separates them from the white text area on the right.
